

BL O/654/22

TRADE MARKS ACT 1994

IN THE MATTER OF TRADE MARK APPLICATION 3580322

BY

SHAREEF AL-OMERI

TO REGISTER THE FOLLOWING TRADE MARK:

AND

OPPOSITION NO. 424919 THERETO

BY

ALNAVIT GMBH

Background and pleadings

1. On 17 January 2021, Shareef Al-Omeri (the “Applicant”) applied to register the trade mark as shown on the cover of this decision. The contested application was accepted, and published for opposition purposes in the Trade Marks Journal on 12 March 2021. Registration of the mark is sought in respect of goods in Class 3 (see **Annex A**).

2. On 11 June 2021, Alnavit GmbH (the “Opponent”) opposed the application under Section 5(2)(b) of the Trade Marks Act 1994 (“the Act”). Initially the Opponent relied on two earlier marks, however, earlier UK right 912669297 was withdrawn by the opponent following a request for proof of use of that mark by the Applicant. The opposition is therefore based only on earlier United Kingdom Trade Mark (UKTM):

Alviana

UKTM No. 916188229

Filing date: 20 December 2016

Registration date: 29 May 2019

3. For the purposes of this opposition, the Opponent relied upon some of the goods for which the earlier mark is registered, i.e.:

Class 3 *Soaps, for use on the human body; Perfumery; Essential oils; Cosmetics; Hair lotion; Hair masks; Dentifrices; Shower gels; Liquid soaps, for use on the human body; Day creams; Night cream; Face creams for cosmetic use; Eye cream; Cosmetic masks; Body milks; Cleansing milk for toilet purposes; Shampoo; Hair preparations and treatments; Toiletries; Tooth care preparations; Exfoliants; Cotton wool for cosmetic purposes; Make-up pads of cotton wool; Cotton balls for cosmetic purposes; Cotton sticks for cosmetic purposes; Cotton sticks for cosmetic purposes; Pre-moistened cosmetic wipes; Non-medicated foot cream; Cosmetic hand creams; Non-medicated toothpaste; Conditioning preparations for the hair; Bars of soap, for use on the human body; Soaps in liquid form, for use on the human body; Bubble*

bath; Bubble bath; Milky lotions for skin care; Body lotions; Cleansing gels for toilet purposes; Cosmetic facial lotions; Antiperspirants [toiletries]; Sunscreen; Sunscreen cream; Suncare lotions; Oils for cosmetic purposes; Pre-shaving preparations; Cosmetic hand creams; Hand creams; Cleaning agents for the hands; Non-medicated lip care preparations.

4. Since the filing date of the earlier mark predates that of the contested application, the Opponent's mark is considered to be an "earlier mark" in accordance with section 6 of the Act. However, as it has not been registered for a period of five years or more before the filing date of the application, it is not subject to the use requirements specified within section 6A of the Act. As a consequence, the Opponent may rely upon any or all of the goods for which the earlier mark is registered without having to show that it has used the mark at all.

5. The opposition is brought against the entire list of goods in Class 3 of the contested application. In its notice of opposition, the Opponent submitted that its earlier mark is visually and aurally highly similar to the contested mark. The Opponent argued that the only difference between the contested and earlier mark is the addition of a letter 'L', which would in any case go unnoticed by the average consumer. The Opponent argued that the goods at issue are self-evidently identical or highly similar as they are of the same or similar nature, have the same or similar intended purposes and method of use, and are complementary or in competition therefore sharing the same end users and trade channels.

6. On 19 October 2021, the Applicant filed a counterstatement, arguing that the inclusion of the letter 'L' in the opponent's earlier mark is "...significant enough to make a difference in the way that it looks and aurally. Visually, I believe it looks different enough for the two products to be separated by sight." The Applicant contended that although it is selling a similar product to the Opponent, the concept and vision of the contested mark "...is totally different. It is niche and unique as our target audience is different". The applicant explained that it intended to merge the Middle East and West and allow luxury to be more affordable, as opposed to the Opponent who is targeting a more "...day to day usage of personal care. Therefore I believe I am not a significant competitor for them to be worried about...".

7. The Applicant referred to the supposed “distinctive markings” above the letter ‘i’ in the contested mark, as well as the feather attached to the word, both of which would allow the Applicant’s customers to differentiate and not confuse the marks at issue. The Applicant acknowledge there to be a degree of similarity between the marks, however, it made clear that it believes “...the subtle differences is what sets us apart therefore I deny the claims of these issues as we can move forward and be on the shelves in our own rights comfortably”.

8. No hearing was requested. Only the Opponent provided submissions in lieu of a hearing, dated 8 June 2022.

9. The Opponent described the contested mark to be “...somewhat stylised by the replacement of the first diagonal bar in the initial letter ‘A’ by a graphic element of a feather.” However, the Opponent argued that the stylisation of the mark plays a lesser role, and it is the word Aviana which dominates the overall impression. The Opponent submitted that the distinctive element VIANA is identical in both marks, with the only difference between them being that the earlier mark contains an additional letter ‘A’. The Opponent claimed that each mark contains four syllables, with the second, third and fourth syllables being identical. The Opponent argued that the marks are highly similar from a visual perspective, and similar to a high degree from an aural perspective, whilst also contending that because each mark is a conceptually neutral word then there can be no conceptual comparison.

10. The Opponent argued that the goods at issue would be purchased by visual and aural means, by a consumer with a medium degree of attention. The Opponent claimed that when taking into consideration factors such as imperfect recollection, the average consumer would mistakenly recall or misremember the marks for one another. The Opponent urged that the letter ‘i’ and figurative leaf in the contested mark would be forgotten, but in any case would be insufficient to overcome the shared elements ‘A_VIANA’. The Opponent provided submissions in relation to the similarity of the goods at issue, which will not be summarised here, rather they shall be introduced into the decision wherever I feel that it is appropriate to do so.

11. The Applicant is representing itself. The Opponent is professionally represented by Gill Jennings & Every LLP.

Decision

12. Although the UK has left the EU, section 6(3)(a) of the European Union (Withdrawal) Act 2018 requires tribunals to apply EU-derived national law in accordance with EU law as it stood at the end of the transition period. The provisions of the Act relied upon in these proceedings are derived from an EU Directive. That is why this decision continues to refer to EU trade mark law.

Section 5(2)(b)

13. Section 5(2)(b) of the Act is as follows:

“(2) A trade mark shall not be registered if because-

(a) ...

(b) it is similar to an earlier trade mark and is to be registered for goods or services identical with or similar to those for which the earlier trade mark is protected, there exists a likelihood of confusion on the part of the public, which includes the likelihood of association with the earlier trade mark”.

14. The following principles are gleaned from the decisions of the EU courts in *Sabel BV v Puma AG*, Case C-251/95, *Canon Kabushiki Kaisha v Metro-Goldwyn-Mayer Inc*, Case C-39/97, *Lloyd Schuhfabrik Meyer & Co GmbH v Klijsen Handel B.V.* Case C-342/97, *Marca Mode CV v Adidas AG & Adidas Benelux BV*, Case C-425/98, *Matratzen Concord GmbH v OHIM*, Case C-3/03, *Medion AG v. Thomson Multimedia Sales Germany & Austria GmbH*, Case C-120/04, *Shaker di L. Laudato & C. Sas v OHIM*, Case C-334/05P and *Bimbo SA v OHIM*, Case C-591/12P.

(a) The likelihood of confusion must be appreciated globally, taking account of all relevant factors;

(b) the matter must be judged through the eyes of the average consumer of the goods or services in question, who is deemed to be reasonably well informed and reasonably circumspect and observant, but who rarely has the chance to make direct comparisons between marks and must instead rely upon the

imperfect picture of them he has kept in his mind, and whose attention varies according to the category of goods or services in question;

(c) the average consumer normally perceives a mark as a whole and does not proceed to analyse its various details;

(d) the visual, aural and conceptual similarities of the marks must normally be assessed by reference to the overall impressions created by the marks bearing in mind their distinctive and dominant components, but it is only when all other components of a complex mark are negligible that it is permissible to make the comparison solely on the basis of the dominant elements;

(e) nevertheless, the overall impression conveyed to the public by a composite trade mark may be dominated by one or more of its components;

(f) however, it is also possible that in a particular case an element corresponding to an earlier trade mark may retain an independent distinctive role in a composite mark, without necessarily constituting a dominant element of that mark;

(g) a lesser degree of similarity between the goods or services may be offset by a great degree of similarity between the marks, and vice versa;

(h) there is a greater likelihood of confusion where the earlier mark has a highly distinctive character, either per se or because of the use that has been made of it;

(i) mere association, in the strict sense that the later mark brings the earlier mark to mind, is not sufficient;

(j) the reputation of a mark does not give grounds for presuming a likelihood of confusion simply because of a likelihood of association in the strict sense;

(k) if the association between the marks creates a risk that the public might believe that the respective goods or services come from the same or economically linked undertakings, there is a likelihood of confusion.

Comparison of goods and services

15. In the judgment of the Court of Justice of the European Union (CJEU) in *Canon*, Case C-39/97, the court stated at paragraph 23 of its judgment that:

“In assessing the similarity of the goods or services concerned, as the French and United Kingdom Governments and the Commission have pointed out, all the relevant factors relating to those goods or services themselves should be taken into account. Those factors include, inter alia, their nature, their intended purpose and their method of use and whether they are in competition with each other or are complementary”.

16. The relevant factors identified by Jacob J. (as he then was) in the *Treat* case, [1996] R.P.C. 281, for assessing similarity were:

- (a) The respective uses of the respective goods or services;
- (b) The respective users of the respective goods or services;
- (c) The physical nature of the goods or acts of service;
- (d) The respective trade channels through which the goods or services reach the market;
- (e) In the case of self-serve consumer items, where in practice they are respectively found or likely to be, found in supermarkets and in particular whether they are, or are likely to be, found on the same or different shelves;
- (f) The extent to which the respective goods or services are competitive. This inquiry may take into account how those in trade classify goods, for instance whether market research companies, who of course act for industry, put the goods or services in the same or different sectors.

17. It has also been established by the General Court (GC) in *Gérard Meric v Office for Harmonisation in the Internal Market*, Case T- 133/05, that:

“29. In addition, the goods can be considered as identical when the goods designated by the earlier mark are included in a more general category, designated by trade mark application (Case T-388/00 Institut fur Lernsysteme v OHIM- Educational Services (ELS) [2002] ECR II-4301, paragraph 53) or where the goods designated by the trade mark application are included in a more general category designated by the earlier mark”.

18. The Opponent has made specific submissions in relation to the similarity and or identity of the goods at issue, whilst although the applicant has acknowledged that “...we are selling a similar product”, they have gone on to submit that their goods are more niche. In addition to the more specific *Skincare cosmetics; Skincare preparations; Anti-aging skincare preparations; Cosmetic products in the form of aerosols for skincare; Non-medicated skincare preparations*; which are the principle goods in the applied for specification, the Applicant has also applied for the entire alphabetical list of goods in Class 3 available under the Nice Classification system. As pointed out by the Opponent, this extends to over 20 pages of terms.

19. In the decision *Separode*, BL O/399/10, Geoffrey Hobbs QC, acting as the Appointed Person, stated at paragraph 5:

“The determination must be made with reference to each of the different species of goods listed in the opposed application for registration; if and to the extent that the list includes goods which are sufficiently comparable to be assessable for registration in essentially the same way for essentially the same reasons, the decision taker may address them collectively in his or her decision.”

20. For the purposes of procedural economy, I will look to categorise the contested individual goods from the alphabetical list wherever possible, and then compare the created categories against the goods of the earlier mark. I shall closely analyse the class headings and general goods listings for Class 3 of the Nice Classification system to assist me in this task.

21. The Nice Classification Class 3 headings include *Non-medicated cosmetics and toiletry preparations; non-medicated dentifrices; perfumery, essential oils; bleaching preparations and other substances for laundry use; cleaning, polishing, scouring and abrasive preparations*.¹ The Nice Classification further particularises these headings into a list of general goods. The list of general goods is less broad than the entire alphabetical list, but is a clear indication of the type of goods available. I shall proceed to categorise the list of general goods into more manageable categories. For example, whilst the list of general goods includes *adhesives for affixing false eyelashes; adhesives for affixing false hair; adhesives for cosmetic purposes*, I shall categorise these as *adhesives*. I consider this to be a fair and efficient process because if the earlier mark were to be registered for *adhesives*, for example, it would cover all the types of adhesives in the alphabetical list which have been applied for by the Applicant.

22. I shall now proceed to apply the same collective principle to the entire list of general goods provided by the Nice Classification in order to create more manageable categories. These categories (see below) shall then be compared against the goods of the earlier mark (in addition to the principally applied for *Skincare cosmetics; Skincare preparations; Anti-aging skincare preparations; Cosmetic products in the form of aerosols for skincare; Non-medicated skincare preparations*):

Abrasives; adhesives for cosmetic purposes; after-shaves; air fragrances; almond milks; almond soaps; aloe vera preparations for cosmetic purposes; alum stones; ammonias; antiperspirants; antistatics; aromatics; astringents; baby wipes; balms; bath preparations; beard and hair dyes; beauty masks; bergamot oil; bleaching preparations; body paint and glitter; breath fresheners; canned pressurized air; carbides; cleaning preparations and products; cleansers; cloths impregnated with detergent; cobbler's wax; collagen; colorants for toilet purposes; colour preparations; cosmetics; cotton for cosmetic purposes; creams for leather; degreasers; dental products; deodorants; depilatory preparations; descaling products; detergents; douching preparations; dry-cleaning preparations; drying agents; essential oils; eye-washes; fabric softeners; false eyelashes; false nails; flavourings for food and beverages; floor wax; greases; grinding preparations; hair styling products; herbal

¹https://www.wipo.int/classifications/nice/nclpub/en/fr/?basic_numbers=show&class_number=3&explanatory_notes=show&lang=en&menulang=en&mode=flat¬ion=&pagination=no&version=20220101

extracts; incense; laundry preparations; make-up; massage gels and oils; moustache wax; nail care products; non-slip products; paint stripping preparations; perfumes; petroleum jelly; polishing products; potpourris; rust removing preparations; shampoos; shaving preparations; shoe care products; skin whitening products; soaps; stain removers; starches; sunscreen; talcum powder; tissues impregnated with cosmetic lotions, or make-up removing preparations; toothpaste; unblockers; vaginal sanitary products; varnish removers; wallpaper cleaners; waxes; windscreen cleaning liquids.

Earlier mark	Application
<p><i>Class 3: Soaps, for use on the human body; Perfumery; Essential oils; Cosmetics; Hair lotion; Hair masks; Dentifrices; Shower gels; Liquid soaps, for use on the human body; Day creams; Night cream; Face creams for cosmetic use; Eye cream; Cosmetic masks; Body milks; Cleansing milk for toilet purposes; Shampoo; Hair preparations and treatments; Toiletries; Tooth care preparations; Exfoliants; Cotton wool for cosmetic purposes; Make-up pads of cotton wool; Cotton balls for cosmetic purposes; Cotton sticks for cosmetic purposes; Cotton sticks for cosmetic purposes; Pre-moistened cosmetic wipes; Non-medicated foot cream; Cosmetic hand creams; Non-medicated toothpaste; Conditioning preparations for the hair; Bars of soap, for use on the human body; Soaps in liquid form, for use on the human body; Bubble bath; Bubble bath; Milky lotions for skin care; Body lotions; Cleansing gels for toilet</i></p>	<p><i>Class 3: Skincare cosmetics; Skincare preparations; Anti-aging skincare preparations; Cosmetic products in the form of aerosols for skincare; Non-medicated skincare preparations;</i></p> <p><i>Abrasives; adhesives for cosmetic purposes; after-shaves; air fragrances; almond milks; almond soaps; aloe vera preparations for cosmetic purposes; alum stones; ammonias; antiperspirants; antistatics; aromatics; astringents; baby wipes; balms; bath preparations; beard and hair dyes; beauty masks; bergamot oil; bleaching preparations; body paint and glitter; breath fresheners; canned pressurized air; carbides; cleaning preparations and products; cleansers; cloths impregnated with detergent; cobbler's wax; collagen; colorants for toilet purposes; colour preparations; cosmetics; cotton for cosmetic purposes; creams for leather; degreasers; dental products; deodorants; depilatory</i></p>

--	---

23. The earlier mark is registered for *toiletries*. Toiletries are goods that are used when washing or taking care of one’s body, including for example soaps, shampoos and toothpastes.² The earlier mark is additionally registered for the more specific *dentifrices*, *soaps*, and *shampoo*. The following contested goods (rather, the categories that have been created) are all types of products used for taking care of

² <https://www.lexico.com/en/definition/toiletries>

one's body, and are therefore considered to be identical to the earlier mark's *toiletries* (and/or *dentifrices*, *soaps* and *shampoo*) under the *Meric* principle:

after-shaves; almond soaps; antiperspirants; baby wipes; bath preparations; breath fresheners; cleaning preparations and products; cleansers; dental products; deodorants; douching preparations; eye-washes; perfumes; shampoos; soaps; talcum powder; toothpaste; vaginal sanitary products;

24. The earlier mark is registered for *cosmetics*. Cosmetics are goods that are used to treat, restore or improve a person's appearance.³ Such a notion covers a broad spectrum of products, from *make-up* to *hair gel*, and *beauty masks* to *beard dye*, and also the goods used in the application process of such products. The following contested goods all are types of products used for such a purpose, and are therefore considered to be identical under the *Meric* principle:

Skincare cosmetics; Skincare preparations; adhesives for cosmetic purposes; alum stones; aloe vera preparations for cosmetic purposes; Anti-aging skincare preparations; astringents; Cosmetic products in the form of aerosols for skincare; Non-medicated skincare preparations; almond milks; balms; beard and hair dyes; beauty masks; body paint and glitter; collagen; cosmetics; cotton for cosmetic purposes; depilatory preparations; false eyelashes; false nails; hair styling products; make-up; massage gels and oils; moustache wax; nail care products; shaving preparations; skin whitening products; tissues impregnated with cosmetic lotions, or make-up removing preparations; petroleum jelly

25. The contested *essential oils* are identical to the *essential oils* registered under the earlier mark. The contested goods include *bergamot oil*, which is an essential oil, and is therefore identical to the *essential oils* of the earlier mark also. An essential oil uses smell to improve mood, ambience and health. An essential oil can be used to scent a room or calm a user, depending on which oil is being used. Essential oils consist of a variety of flower, plant and herbal extracts. The *essential oils* of the earlier mark are therefore highly similar to the contested *air fragrances; aromatics; herbal extracts; incense; and potpourris*, which are equally used to improve mood, ambience and

³ <https://www.lexico.com/en/definition/cosmetic>

health by way of smell. They have the same intended purpose, use, user and trade channel.

26. The contested *sunscreen* is identical to the *sunscreen* registered under the earlier mark.

27. It appears to me to be a fair reflection to say that the goods of the earlier mark are focused on the cleansing, beautification and caring of a human being. A number of the contested goods have the intended purpose of cleansing and caring for things other than human beings, such as cars, shoes, clothes, wallpaper etc. Such goods will therefore have a different nature, use, user and trade channel etc., from those of the earlier mark. As a result, the following contested categories of goods are found to be dissimilar to the goods of the earlier mark:

*abrasives; ammonias; antistatics; bleaching preparations; canned pressurized air; carbides of metal; cloths impregnated with detergent; cobbler's wax; colour preparations; colorants for toilet purposes; creams for leather; degreasers; descaling products; detergents; dry-cleaning preparations; drying agents; fabric softeners; flavourings for food and beverages; floor wax; greases; grinding preparations; laundry preparations; slip products; paint stripping preparations; polishing products; rust removing preparations; shoe care products; stain removers; starches; unblockers; varnish removers; wallpaper cleaners; windscreen cleaning liquids; waxes.*⁴

28. Now that the categories representing the alphabetical list have been compared to the goods of the earlier mark, and have subsequently been found to be either identical, highly similar or dissimilar, the marks themselves can be compared. If a likelihood of confusion is found to exist between the marks, then the alphabetical list of goods captured under the created categories that have been found to be identical or similar

⁴ These category names are used for illustrative purposes at this moment. Later in the decision the actual list of potentially acceptable and/or refusible items will be created.

It should be noted that certain items from the alphabetical list could fall within the broader spectrum of one of the identified "dissimilar categories", but may nevertheless still be found to be *similar* to the goods of the earlier mark, especially if it is considered to be either a cosmetic, dentifrice, toiletry, or essential oil etc., for *human* use. For example, whilst *Abrasive boards for use on fingernails* in the alphabetical list fall under the general category of dissimilar *abrasives*, these particular goods are nevertheless used for cosmetic purposes, and are therefore *similar* to the *cosmetics* of the earlier mark).

shall need to be individually identified, in order to make clear which contested goods (if any) should be refused publication and which (if any) can become registered.

Comparison of the marks

29. In *eSure Insurance v Direct Line Insurance*, [2008] ETMR 77 CA, Lady Justice Arden stated that:

“49... I do not find any threshold condition in the jurisprudence of the Court of Justice cited to us. Moreover I consider that no useful purpose is served by holding that there is some minimum threshold level of similarity that has to be shown. If there is no similarity at all, there is no likelihood of confusion to be considered. If there is some similarity, then the likelihood of confusion has to be considered but it is unnecessary to interpose a need to find a minimum level of similarity.

30. In relation to those contested goods that have been found to be dissimilar (see paragraph 27) there can be no likelihood of confusion. It is therefore not necessary to conduct a comparison of the marks in relation to those particular goods.

31. It is clear from *Sabel BV v. Puma AG* (particularly paragraph 23) that the average consumer normally perceives a mark as a whole and does not proceed to analyse its various details. The same case also explains that the visual, aural and conceptual similarities of the marks must be assessed by reference to the overall impressions created by the marks, bearing in mind their distinctive and dominant components. The CJEU stated at paragraph 34 of its judgment in Case C-591/12P, *Bimbo SA v OHIM*, that:

“.....it is necessary to ascertain, in each individual case, the overall impression made on the target public by the sign for which registration is sought, by means of, inter alia, an analysis of the components of a sign and of their relative weight in the perception of the target public, and then, in the light of that overall impression and all factors relevant to the circumstances of the case, to assess the likelihood of confusion.”

32. It would be wrong, therefore, to dissect the trade marks artificially, although it is necessary to take into account the distinctive and dominant components of the marks and to give due weight to any other features which are not negligible and therefore contribute to the overall impressions created by the marks.

33. The respective trade marks are shown below:

Earlier trade mark	Contested trade mark
<p>ALVIANA</p>	

34. The earlier mark consists of the single term ALVIANA, which has no apparent meaning in the English language. It is presented in a standard typeface. The overall impression lies in the perception of the single term, which is also where any distinctiveness lies. By way of being a seemingly invented word, ALVIANA is considered to be highly distinctive.

35. The contested mark may be perceived in the majority of instances as consisting of a combination of the term AVIANA and a stylised golden feather device. The feather hides the whole of the left stroke of the first letter 'A', resulting in a degree of ambiguity as to whether it will be categorically identified as the letter 'A'. However, I consider it quite likely that the letter 'A' will be perceived, as it possesses the rest of the anatomy of the letter 'A', and in my opinion clearly acts as the first letter of the subsequent term (it is the same size, colour, style and font as the remaining letters). Other than for the Applicant alluding to an intention to merge the Middle East and West, no real definition of the word AVIANA has been given. It has no immediate or obvious meaning in the English language, and will therefore be assumed to be an invented term. By way of being a seemingly invented word it is considered to be highly distinctive, and subsequently the more distinctive element in the contested mark. Although the term

AVIANA makes up the majority of the mark, the feather is roughly the same height as the letters that make up the term, and due to its colour and stylisation is certainly noticeable. In my opinion, neither the figurative element nor word element are more dominant than the other. The overall impression of the contested mark therefore lies in the totality, although I believe that the figurative aspect will largely be perceived as mere decorative material.

Visual similarity

36. The marks are visually similar insofar as they both contain the letter combination V-I-A-N-A. In my opinion, the beginning of the term in the contested mark will be perceived as a letter 'A', therefore becoming an additional letter that the marks share. The marks are visually dissimilar insofar as the earlier mark contains the additional letter 'L', whilst the contested mark contains a figurative golden feather device, which has no counterpart in the earlier mark. Although referred to by the Applicant in its counterstatement, I cannot see any "distinctive markings" above the letter 'I'.

37. The marks are considered to be visually similar to at least a medium degree.

Aural similarity

38. The earlier mark is not an English language word, and so there is no precedent for its pronunciation. Nevertheless, I believe it will be pronounced equally throughout the UK (subject to certain accent differences) based on the syllables AL-VEE-AH-NA. There may be a certain number of consumers who do not perceive the first letter 'A' in the contested mark, and therefore pronounce the term based on the syllables VEE-AH-NA. However, in my opinion, the letter 'A' will be perceived in the majority of instances, and therefore the contested term will be pronounced A-VEE-AH-NA. In either scenario, the collection of letters VIANA (forming three syllables VEE-AH-NA) will be pronounced identically in each mark. The figurative element of the feather in the contested mark will not be verbalised, and therefore has no impact on the aural comparison.

39. The marks are considered to be aurally similar to a very high degree.

Conceptual similarity

40. The Applicant alluded to its products merging “the Middle East and West”, and therefore AVIANA may have a meaning in a foreign language. However, no definition has been provided and therefore it is assumed to have none. The contested mark contains a figurative feather device, which may convey a concept, although it has no counterpart in the earlier mark. Both ALVIANA and AVIANA/VIANA appear to be seemingly invented words that carry no concept. The marks are therefore ultimately neutral for the purposes of a conceptual comparison.

Average consumer and the purchasing act

41. For the purpose of assessing the likelihood of confusion, it must be borne in mind that the average consumer's level of attention is likely to vary according to the category of goods or services in question.⁵ In *Hearst Holdings Inc, Fleischer Studios Inc v A.V.E.L.A. Inc, Poeticgem Limited, The Partnership (Trading) Limited, U Wear Limited, J Fox Limited*, [2014] EWHC 439 (Ch), Birss J. described the average consumer in these terms:

“60. The trade mark questions have to be approached from the point of view of the presumed expectations of the average consumer who is reasonably well informed and reasonably circumspect. The parties were agreed that the relevant person is a legal construct and that the test is to be applied objectively by the court from the point of view of that constructed person. The words “average” denotes that the person is typical. The term “average” does not denote some form of numerical mean, mode or median.”

42. The goods at issue are usually considered to be everyday products, insofar as they are the type of goods which are bought frequently and used on a daily basis. It is often the case that a certain number of the goods at issue will be more costly and promoted as being more high-end or “premium” than the others (as alluded to by the Applicant). However, there are an equal number of lower cost and “basic” items, and

⁵ *Lloyd Schuhfabrik Meyer*, Case C-342/97

so on average the goods will fall within a generally affordable price range of inexpensive items. Accordingly, the level of attention will be no more than medium.

43. Based on the nature of the goods at issue they will most likely will be purchased in a store, or online, or via a magazine. With this in mind, I consider the purchase process to be primarily visual. However, I do not discount the possibility that the goods may also be bought over the telephone from a telemarketer, or following consultation with a shop assistant, both of which would rely heavily on an oral exchange, and therefore there may be an aural element to the purchasing process.

Distinctive character of the earlier trade marks

44. In *Lloyd Schuhfabrik Meyer & Co. GmbH v Klijsen Handel BV*, Case C-342/97 the CJEU stated that:

“22. In determining the distinctive character of a mark and, accordingly, in assessing whether it is highly distinctive, the national court must make an overall assessment of the greater or lesser capacity of the mark to identify the goods or services for which it has been registered as coming from a particular undertaking, and thus to distinguish those goods or services from those of other undertakings (see, to that effect, judgment of 4 May 1999 in Joined Cases C-108/97 and C-109/97 *WindsurfingChiemsee v Huber and Attenberger* [1999] ECR I-0000, paragraph 49).

23. In making that assessment, account should be taken, in particular, of the inherent characteristics of the mark, including the fact that it does or does not contain an element descriptive of the goods or services for which it has been registered; the market share held by the mark; how intensive, geographically widespread and long-standing use of the mark has been; the amount invested by the undertaking in promoting the mark; the proportion of the relevant section of the public which, because of the mark, identifies the goods or services as originating from a particular undertaking; and statements from chambers of commerce and industry or other trade and professional associations (see *Windsurfing Chiemsee*, paragraph 51).”

45. The Opponent has not made a direct claim that its earlier mark has acquired an enhanced degree of distinctive character, nor has the Opponent filed any evidence of use that may indicate such a position. My assessment of the degree of distinctive character of the earlier mark is therefore to be made on the basis of its inherent features only. In this regard, the distinctiveness rests in the totality of the seemingly invented term ALVIANA, which has no concept or meaning in relation to the goods at issue, and is therefore considered to be of a high distinctive character.

Likelihood of confusion

46. Confusion can be direct or indirect. Direct confusion involves the average consumer mistaking one mark for the other, while indirect confusion is where the average consumer realises the marks are not the same but puts the similarity that exists between the marks and the goods and services down to the responsible undertakings being the same or related.

47. There is no scientific formula to apply in determining whether there is a likelihood of confusion; rather, it is a global assessment where a number of factors need to be borne in mind (see *Sabel*, C-251/95, para 22). The first is the interdependency principle i.e. a lesser degree of similarity between the respective trade marks may be offset by a greater degree of similarity between the respective goods and services and vice versa (see *Canon*, C-39/97, para 17). It is necessary for me to keep in mind the distinctive character of the Opponent's trade mark, the average consumer for the services and the nature of the purchasing process. In doing so, I must be alive to the fact that the average consumer rarely has the opportunity to make direct comparisons between trade marks and must instead rely upon the imperfect picture of them that he has retained in his mind.

48. In *New Look Limited v OHIM*, joined cases T-117/03 to T-119/03 and T-171/03, the GC stated that:

“49. However, it should be noted that in the global assessment of the likelihood of confusion, the visual, aural or conceptual aspects of the opposing signs do not always have the same weight. It is appropriate to examine the objective conditions under which the marks may be present on the market (*BUDMEN*,

paragraph 57). The extent of the similarity or difference between the signs may depend, in particular, on the inherent qualities of the signs or the conditions under which the goods or services covered by the opposing signs are marketed. If the goods covered by the mark in question are usually sold in self-service stores where consumer choose the product themselves and must therefore rely primarily on the image of the trade mark applied to the product, the visual similarity between the signs will as a general rule be more important. If on the other hand the product covered is primarily sold orally, greater weight will usually be attributed to any aural similarity between the signs.”

And

“50... Generally in clothes shops customers can themselves either choose the clothes they wish to buy or be assisted by the sales staff. Whilst oral communication in respect of the product and the trade mark is not excluded, the choice of the item of clothing is generally made visually. Therefore, the visual perception of the marks in question will generally take place prior to purchase. Accordingly the visual aspect plays a greater role in the global assessment of the likelihood of confusion.”

49. In *Quelle AG v OHIM*, Case T-88/05, the GC found that visual similarity (and difference) is most important in the case of goods that are self-selected or where the consumer sees the mark when purchasing the goods. The Court stated that:

“68..... If the goods covered by the marks in question are usually sold in self-service stores where consumers choose the product themselves and must therefore rely primarily on the image of the trade mark applied to the product, the visual similarity between the signs will as a general rule be more important. If on the other hand the product covered is primarily sold orally, greater weight will usually be attributed to any phonetic similarity between the signs (*NLSPORT, NLJEANS, NLACTIVE and NLCollection*, paragraph 53 supra, paragraph 49).

69. Likewise, the degree of phonetic similarity between two marks is of less importance in the case of goods which are marketed in such a way that, when

making a purchase, the relevant public usually perceives visually the mark designating those goods (*BASS*, paragraph 56 supra, paragraph 55, and Case T-301/03 *Canali Ireland v OHIM – Canal Jean (CANAL JEAN CO. NEW YORK)* [2005] ECR II-2479, paragraph 55)... The same is true of catalogue selling, which involves as much as does shop selling a visual assessment of the item purchased by the consumer, whether clothing or shoes, and does not generally allow him to obtain the help of a sales assistant. Where a sales discussion by telephone is possible, it takes place usually only after the consumer has consulted the catalogue and seen the goods. The fact that those products may, in some circumstances, be the subject of discussion between consumers is therefore irrelevant, since, at the time of purchase, the goods in question and, therefore, the marks which are affixed to them are visually perceived by consumers.”

50. Having conducted a full analysis and thorough comparison of the marks and their respective goods at issue, I have determined that the visual considerations are of greater importance in the assessment of a likelihood of confusion, due to the purchasing process of the respective goods being visually dominated. With this in mind, it is important to reaffirm that I have found the marks to be visually similar to at least a medium degree. It is also important to reaffirm that I did not rule out attention being paid to the aural aspect during the purchasing process, in which case I consider the finding of a very high degree of aural similarity to be of significance. The relatively high degrees of similarities in these two aspects would not be lost on the average consumer who is considered to be reasonably well informed and reasonably observant and circumspect,⁶ but who must nevertheless rely upon an imperfect picture of the trade marks they kept in their mind.

51. The earlier mark consists exclusively of the invented and subsequently highly distinctive term ALVIANA, whilst the contested mark consists of the combination of the equally invented and distinctive term AVIANA, and a golden feather device. From both a visual and aural perspective, the differences between the two verbal elements is, in my opinion, minimal.

⁶ See paragraph 60 of *Hearst Holdings Inc, Fleischer Studios Inc v A.V.E.L.A. Inc, Poeticgem Limited, The Partnership (Trading) Limited, U Wear Limited, J Fox Limited*.

52. When a consumer is referring to each mark orally, the figurative element in the contested mark will not be apparent. In relation to goods which are in general relatively inexpensive, and to which the average consumer does not pay a particularly high level of attention when choosing, I am not convinced that the inclusion of a letter 'L' will have a significant enough aural impact to differentiate ALVIANA from AVIANA. From an aural perspective, it could be argued that the marks are almost identical, leading to the average consumer directly confusing the contested element AVIANA with an imperfect recollection of the earlier mark ALVIANA, which sounds highly similar.

53. However, this is focusing on only one aspect, and I am of course aware that a comparison of the marks at issue involves a global assessment of each mark, in which case the figurative element of a golden feather cannot be ignored and must be taken into consideration. That having been said, the Applicant itself has referred to the differences between the marks as being merely "subtle", and I am not entirely convinced that the inclusion of a figurative element would prevent the average consumer from simply mistaking one mark for the other. I consider it a distinct possibility that when an average consumer (who is not paying a high degree of attention) is faced with the contested mark, they will mistake it for an earlier mark they have seen or heard of previously in relation to identical or highly similar goods. As mentioned above, the figurative differences will be totally missed in those situations when the marks are purchased aurally, and even in those scenarios when the marks are purchased visually, I do not consider the "subtle" stylisation differences to be sufficient enough to alert a consumer to the possibility that the marks are being provided by different trade origins.

54. In case I am wrong in this regard, I consider it likely that the marks will at least lead to *indirect* confusion. It should be borne in mind that a finding of a likelihood of indirect confusion is not a consolation prize for those who fail to establish a likelihood of direct confusion.⁷ Further, there must be a proper basis for concluding that there is a likelihood of indirect confusion given that there is no likelihood of direct confusion.⁸

⁷ In *Liverpool Gin Distillery Limited v Sazerac Brands LLC* [2021] EWCH Civ 2017, paragraph 13, Arnold LJ approved this "consolation prize statement" as made by James Mellor QC's (sitting as the Appointed Person) statement in *Cheeky Italian Ltd v Sutaria* (O/219/16) paragraph 16.

⁸ *Ibid*, Arnold LJ's words at paragraph 13.

55. In *L.A. Sugar Limited v By Back Beat Inc*, Case BL O/375/10, Mr Iain Purvis Q.C., as the Appointed Person, explained that:

“16. Although direct confusion and indirect confusion both involve mistakes on the part of the consumer, it is important to remember that these mistakes are very different in nature. Direct confusion involves no process of reasoning – it is a simple matter of mistaking one mark for another. Indirect confusion, on the other hand, only arises where the consumer has actually recognized that the later mark is different from the earlier mark. It therefore requires a mental process of some kind on the part of the consumer when he or she sees the later mark, which may be conscious or subconscious but, analysed in formal terms, is something along the following lines: “The later mark is different from the earlier mark, but also has something in common with it. Taking account of the common element in the context of the later mark as a whole, I conclude that it is another brand of the owner of the earlier mark.”

17. Instances where one may expect the average consumer to reach such a conclusion tend to fall into one or more of three categories:

(a) where the common element is so strikingly distinctive (either inherently or through use) that the average consumer would assume that no-one else but the brand owner would be using it in a trade mark at all. This may apply even where the other elements of the later mark are quite distinctive in their own right (“26 RED TESCO” would no doubt be such a case).

(b) where the later mark simply adds a non-distinctive element to the earlier mark, of the kind which one would expect to find in a sub-brand or brand extension (terms such as “LITE”, “EXPRESS”, “WORLDWIDE”, “MINI” etc.).

(c) where the earlier mark comprises a number of elements, and a change of one element appears entirely logical and consistent with a brand extension (“FAT FACE” to “BRAT FACE” for example).”

56. The process of indirect confusion would essentially involve the average consumer recognizing the “subtle” differences between the marks at issue, in particular the feather and letter ‘L’, and conducting the conscious or subconscious mental process of thinking: “The later mark is different from the earlier mark, but also has something in common with it. Taking account of the common element in the context of the later mark as a whole, I conclude that it is another brand of the owner of the earlier mark.”⁹ I therefore believe it likely that the marks at issue will cause a likelihood of indirect confusion.

57. In coming to such a conclusion, I have not disregarded the size of the feather device or its impact on the overall impression of the contested mark. Indeed, I have previously acknowledged that it is no less dominant than the word AVIANA. However, I have also previously indicated that the word AVIANA is the more distinctive element, with the feather device most likely being perceived as mere decoration.

58. In CReMESPRESSO,¹⁰ the GC found the following:

52 In that regard, it should first of all be noted that, according to well-established case-law, in the case of a mark consisting of both word and figurative elements, the word elements must generally be regarded as more distinctive than the figurative elements, or even as dominant, since the relevant public will keep in mind the word elements to identify the mark concerned, the figurative elements being perceived more as decorative elements (see, to that effect, judgment of 6 December 2013, *Premiere Polish v OHIM — Donau Kanol (ECOFORCE)*, T-361/12, not published, EU:T:2013:630, paragraph 32 and the case-law cited).

59. Further, in Genfoot (KAMIK),¹¹ the GC again found:

41 In any event, it should also be noted that, where a trade mark is composed of word and figurative elements, the word element is, in principle, more distinctive than the figurative element, because the average consumer will refer to the goods in question by quoting their name rather than by describing the

⁹ *L.A. Sugar Limited v By Back Beat Inc*, Case BL O/375/10

¹⁰ T-68/17, *Migros-Genossenschafts-Bund v EUIPO, CReMESPRESSO*

¹¹ T-171/17, *M & K v EUIPO, Genfoot (KIMIKA)*

figurative element, particularly where that figurative element has been added for decorative effect and is not intended to be distinctive (see, to that effect, judgment of 6 September 2013, *Leiner v OHIM — Recaro (REVARO)*, T-349/12, not published, EU:T:2013:412, paragraph 23 and the case-law cited).

60. By virtue of being a decorative element, the feather device cannot be considered to carry further sway than the distinctive verbal element, and as such the contested mark would never (in all likelihood) be referred to by the average consumer as the “golden feather mark” – rather it would be referred to by its verbal element AVIANA, as indicated by the GC. By nature of being a decorative element, the golden feather’s impact on the mark is subsequently reduced to being of secondary importance as an indicator of trade origin.

61. I am cogent to the notion that where an earlier mark comprises a number of elements, and a change of one element appears entirely logical and consistent with a brand extension, the result could be a likelihood of indirect confusion. It appears to me that the inclusion of a decorative figurative element is an entirely logical step in a brand extension. I find it likely that the consumer would perceive the inclusion of the feather element to be a mere decorative addition in the earlier brand’s development, thus believing that both marks belong to the same or economically linked owners. For those contested goods found to be identical or highly similar, I consider there to be (at least) a likelihood of indirect confusion.

62. As indicated in *eSure Insurance*, for those goods found to be dissimilar there can be no likelihood of confusion, neither indirect nor direct. As a result, the categories of goods found to be dissimilar can proceed to registration. The categories identified consist of:

abrasives; ammonias; antistatics; bleaching preparations; canned pressurized air; carbides of metal; cloths impregnated with detergent; cobbler’s wax; colour preparations; colorants for toilet purposes; creams for leather; degreasers; descaling products; detergents; dry-cleaning preparations; drying agents; fabric softeners; flavourings for food and beverages; floor wax; greases; grinding preparations; laundry preparations; slip products; paint stripping preparations; polishing products; rust

removing preparations; shoe care products; stain removers; starches; unblockers; varnish removers; wallpaper cleaners; windscreen cleaning liquids; waxes.

Conclusion

63. The Opponent has been partially successful. Subject to an appeal, the contested application shall be refused for the goods as identified in **Annex B**.

64. Also subject to any appeal, the contested application may proceed to registration for those goods from the alphabetical list which would fall within one of the general categories of *dissimilar* goods (subject to specific examples, as explained in footnote 4 on page 13), i.e.,:

Class 3 *Abrasive bands; Abrasive cloth; Abrasive compounds; Abrasive emery paper; Abrasive granules; Abrasive paper; Abrasive paper [sandpaper]; Abrasive paste; Abrasive preparations; Abrasive preparations for polishing; Abrasive preparations for vehicle care; Abrasive rolls; Abrasive sand; Abrasive sanding sponges; Abrasive sheets; Abrasive strips; Abrasives; Adhesive removers; Agents for removing wax; Air (Canned pressurized -) for cleaning and dusting purposes; Alcoholic solvents being cleaning preparations; Alkali (Volatile -) [ammonia] detergent; Ammonia for cleaning purposes; Ammonia [volatile alkali] [detergent]; Ammonia [volatile alkali] detergent; Animal grooming preparations; Anti-smear agents for cleaning purposes; Antistatic drier sheets; Antistatic dryer sheets; Anti-static dryer sheets; Antistatic preparations for household purposes; Antistatic sprays for clothing; Anti-static sprays for clothing; Ash (Volcanic -) for cleaning; Automobile cleaners; Automobile cleaning preparations; Automobile polish; Automobile polishes; Automobile wax; Automotive cleaning preparations; Auto-tanning creams; Biological laundry detergents; Bleach; Bleaching (Leather -) preparations; Bleaching preparations; Bleaching preparations and other substances for laundry use; Bleaching preparations for household use; Bleaching preparations for laundry use; Bleaching preparations [decolorants] for household purposes; Bleaching preparations [laundry]; Bleaching salts; Bleaching soda; Blueing for*

laundry; Blueing (Laundry -); Bluing for laundry; Canned pressurized air for cleaning and dusting purposes; Canned pressurized air for dusting and cleaning purposes; Car cleaning preparations; Car polish; Car shampoos; Car wax; Car wax with a paint sealant; Carbides of metal [abrasives]; Carboric soaps; Carnauba wax for automotive use; Carpet cleaners; Carpet cleaning preparations; Carpet freshening preparations; Carpet shampoo; Castor oil for cosmetic purposes; Caustic cleaning agents; Caustic soda; Chalk (Cleaning -); Chemical cleaning preparations for household purposes; Chemical laundry preparations; Chrome cleaners; Chrome polish; Cleaner for cosmetic brushes; Cleaners for litter trays; Cleaning agents for deep freezers; Cleaning agents for glass; Cleaning agents for household purposes; Cleaning agents for metal; Cleaning agents for stone; Cleaning and shining preparations for plant leaves; Cleaning chalk; Cleaning fluid for typewriter type; Cleaning fluids; Cleaning fluids for camera lenses; Cleaning foam; Cleaning preparations; Cleaning preparations for animal cages; Cleaning preparations for automobiles; Cleaning preparations for cleansing drains; Cleaning preparations for fabrics; Cleaning preparations for household purposes; Cleaning preparations for leather; Cleaning preparations for plant leaves; Cleaning preparations for use in livestock farming; Cleaning preparations for use on masonry; Cleaning preparations for use on tiles; Cleaning preparations for use on vehicles; Cleaning preparations impregnated into pads; Cleaning preparations impregnated into tissues; Cleaning preparations in the form of foams; Cleaning solutions for dental ultrasonic sterilization apparatus; Cleaning sprays; Cleaning substances for household use; Cleansers for household purposes; Cleansing balm; Cleansing cream; Cleansing creams; Cleansing foam; Cleansing gels; Cleansing lotions; Cleansing milk for toilet purposes; Cleansing mousse; Cleansing oil; Cloths impregnated with a detergent for cleaning; Cloths impregnated with a detergent for cleaning camera lenses; Cloths impregnated with polishing preparations for cleaning; Cobblers' wax; Color- [colour-] brightening chemicals for household purposes [laundry]; Color run prevention laundry sheets; Colorants for toilet purposes; Color-brightening

chemicals for household purposes [laundry]; Colour run prevention laundry sheets; Colour-brightening chemicals for household purposes [laundry]; Commercial laundry detergents; Colour-removing preparations; Common toilet water; Cream cleaners (Non-medicated -); Cushions filled with fragrant substances; Cushions filled with perfumed substances; Cushions impregnated with fragrant substances; Cushions impregnated with perfumed substances; Degreasers other than for use in manufacturing processes; Degreasers, other than for use in manufacturing processes; Degreasing preparations for engines; Degreasing preparations for household purposes; De-greasing preparations for household purposes; Degreasing preparations with a solvent base; Degreasing solvents, other than for use in manufacturing processes; Degreasing sprays; Descalants for household use; Descaling preparations for household purposes; Destainers; Detanglers; Detergent compositions for cleaning golf clubs; Detergent compositions for cleaning shoes; Detergent soap; Detergent strengtheners; Detergents; Detergents for automobiles; Detergents for household use; Detergents for machine dishwashing; Detergents other than for use in manufacturing operations and for medical purposes; Detergents, other than for use in manufacturing operations and for medical purposes; Detergents prepared from petroleum; Dewaxing preparations; Diamantine [abrasive]; Dishwasher detergents in gel form; Dishwasher powder; Dishwasher rinsing agents; Dishwasher tablets; Dishwashing detergents; Dishwashing liquid; Dishwashing preparations; Drain and sink unblocking preparations; Drain cleaning preparations; Dry cleaning fluids; Dry cleaning preparations; Dry-cleaning preparations; Drying agents for dishwashing machines; Dusting powder; Dusting powder [for toilet use]; Emery; Emery cloth; Emery paper; Emulsifying solvent cleaners; Essential oils as fragrances for laundry use; Essential oils as perfume for laundry purposes; Essential oils for food flavorings; Essential oils for household purposes; Essential oils for household use; Essential oils for industrial use; Essential oils for use in manufacturing processes; Essential oils for use in the manufacture of e-liquid; Eyeglass lens cleaning solutions; Eyeglass wipes impregnated with a detergent;

Fabric brighteners; Fabric conditioners; Fabric conditioning preparations; Fabric softener; Fabric softener for laundry; Fabric softener for laundry use; Fabric softeners; Fabric softeners for laundry; Fabric softeners for laundry use; Fake blood; Fake blood being theatrical make-up; Flexible abrasives; Floor buffing compound; Floor buffing compounds; Floor cleaning preparations; Floor finish removers; Floor polish; Floor polishes; Floor shining compositions; Floor stripping preparations; Floor treatment compositions; Floor wax; Floor wax remover; Floor wax removers; Floor wax removers [scouring preparations]; Floors (Non-slipping liquids for -); Floors (Non-slipping wax for -); Foam cleaning preparations; Foam detergents; Fragrance for household purposes; Fragrance preparations; Fragrance sachets; Fragrances; Fragrances for automobiles; Fragrant sachets; Fruit and vegetable wash; Furbishing preparations; Furniture cleaner; Furniture polish; Furniture polishes; General purpose scouring powder; Glass cleaners; Glass cleaning preparations; Glass cloth; Glass cloth [abrasive cloth]; Glass paper; Glaze (Laundry -); Glue removers; Graffiti removing substances; Grains for buffing; Granular corundum; Greasepaint; Grease-removing preparations; Grinding foils; Grinding preparations; Grinding preparations for semiconductors; Household bleach; Household cleaning substances; Household cleansers; Household detergents; Household fragrances; Impregnated cloths for polishing; Impregnated paper tissues for cleaning dishware; Industrial abrasives; Industrial soap; Kettle cleaner; Laundry additives; Laundry additives for water softening; Laundry balls containing laundry detergent; Laundry bleach; Laundry bleaching preparations; Laundry blue; Laundry blueing; Laundry detergents; Laundry detergents for household cleaning use; Laundry fabric conditioner; Laundry glaze; Laundry liquids; Laundry powder; Laundry preparations; Laundry preparations for attracting dirt; Laundry preparations for attracting dyes; Laundry sizing; Laundry soaking preparations; Laundry soap; Laundry soaps; Laundry starch; Laundry wax; Lavatory cleaning compositions; Leather and shoe cleaning and polishing preparations; Leather bleaching preparations; Leather (Creams for -); Leather dressings; Leather polishes; Leather

preservatives; *Leather preservatives [polishes]; Leather preserving polishes; Leaves of plants (Preparations to make shiny the -); Lime removers; Linen (Sachets for perfuming -); Liquid dishwasher detergents; Liquid laundry detergents; Liquid soap for dish washing; Liquid soap for laundry; Liquid soaps for laundry; Liquids for floors (Non-slipping -); Litter tray cleaners incorporating a deodorizer; Metal polish; Metal polishes; Milk (Cleansing -) for toilet purposes; Mould removing preparations; Natural starches for laundry purposes; Non-slipping liquids for floors; Non-slipping wax for floors; Odour fresheners for animals; Oils for toilet purposes; Oven cleaners; Oven cleaners [preparations]; Oven cleaning preparations; Paint remover; Paint removers; Paint removing compositions; Paint removing preparations; Paint stripper; Paint strippers; Paint stripping preparations; Paper hand towels impregnated with cleaning agents; Parquet floor wax; Pastes for cleaning shoes; Pastes for razor strops; Perfumed sachets; Perfumes for cardboard; Perfumes for ceramics; Perfumes for industrial purposes; Perfumes in solid form; Pet odor removers; Pet stain removers; Pine oils for cleaning floors; Plants (Preparations to make shiny the leaves of -); Polish; Polish for furniture and flooring; Polish for musical instruments; Polishes; Polishes for guitars; Polishing creams; Polishing paper; Polishing powders; Polishing preparations; Polishing rouge; Polishing stones; Polishing wax; Powder for laundry purposes; Pre-moistened towelettes impregnated with a detergent for cleaning; Pre-moistened towelettes impregnated with dishwashing detergent; Preparations and products for fur care; Preparations for soaking laundry; Preparations for stripping wax from floors; Preparations for unblocking drain pipes; Preparations for unblocking sinks; Preparations to make shiny the leaves of plants; Preparations to make the leaves of plants shiny; Prepared wax for polishing; Preservative creams for leather; Preservatives for leather; Preservatives for leather [polishes]; Razor strops (Pastes for -); Removers (Floor wax -) [scouring preparations]; Rinse aids; Rinsing agents for laundry; Rinsing aids for use when washing clothes; Rust removers; Rust removing preparations; Sachets for perfuming linen; Saddle soap; Saddle soaps; Safrol; Salt crystal removers; Sandcloth;*

Sanding gloves; Sandpaper; Sandpaper for sharpening drawing pencils; Sandpaper pads for sharpening drawing pencils; Scale removing preparations for household purposes; Scented ceramic stones; Scented fabric refresher spray; Scented fabric refresher sprays; Scented linen sprays; Scented linen water; Scouring liquids; Scouring powders; Scouring preparations; Scouring solutions; Scouring substances; Scrubbing powder; Seaweed gelatine for laundry use (funori); Seaweed gelatine for laundry use [funori]; Shampoos for vehicles; Sharpening preparations; Shining preparations being polish; Shining preparations for fruit; Shining preparations for fruits; Shining preparations for plant leaves; Shining preparations [polish]; Shiny (Preparations to make the leaves of plants -); Shoe and boot cream; Shoe black [shoe polish]; Shoe cleaners [preparations]; Shoe cream; Shoe polish; Shoe polish and creams; Shoe polish applicators containing shoe polish; Shoe polishes; Shoe sprays; Shoe wax; Shoemakers' wax; Shower and bath foam; Silicon carbide [abrasive]; Silicon carbide for use as an abrasive; Smoothing stones; Soaking laundry (Preparations for -); Soap for brightening textile; Soaps for brightening textiles; Soaps for household use; Soaps for laundry use; Soaps for toilet purposes; Soda (Bleaching -); Soda lye; Softeners (Fabric -) for laundry use; Softening agents for laundry purposes; Solvents for removing paints; Solvents for removing varnishes; Spray cleaners for freshening athletic mouth guards; Spray cleaners for household use; Spray cleaners for use on textiles; Spray polish; Stain removers; Stain removing agents; Stain removing benzine; Stain removing preparations; Stain removing preparations for use on household goods; Starch for abrasive purposes; Starch for cleaning purposes; Starch for laundry purposes; Starch glaze for laundry purposes; Substances for laundry use; Synthetic detergents for clothes; Tailors' and cobblers' wax; Tailors' wax; Time-release solid drain detergent; Tissues impregnated with leather gloss agents; Toilet bowl detergents; Toilet cleaners; Toilet cleaning gels; Toilet milk for cleansing purposes; Toilet powders; Toilet preparations; Toilet soap; Toilet soaps; Toilet water; Toilet water containing snake oil; Toilet waters; Tripoli stone for polishing; Turpentine, for degreasing; Turpentine for degreasing;

Unblocking drain pipes (Preparations for -); Upholstery cleaners; Varnish removers; Varnish-removing preparations; Vehicle cleaning preparations; Vehicle shampoos; Vehicle tyre polish; Volatile alkali [ammonia] [detergent]; Volcanic ash for cleaning; Wallpaper cleaning preparations; Washing agents for textiles; Washing conservation agents; Washing creams; Washing liquids; Washing powder; Washing preparations; Washing preparations for household purposes; Washing soda, for cleaning; Washing-up detergent; Washing-up liquids; Wax (Cobblers' -); Wax for floors (Non-slipping -); Wax for parquet floors; Wax (Laundry -); Wax (Tailors' -); Waxes for leather; Whiting; Window cleaners in spray form; Window cleaners [polish]; Window cleaning compositions; Windscreen cleaning fluids; Windscreen cleaning liquids; Windscreen cleaning preparations; Windshield cleaner fluids; Windshield cleaning liquids; Windshield washing fluid; Whitewall cleaners; Wintergreen oil; Wipes impregnated with a cleaning preparation; Wipes incorporating cleaning preparations; Wiping cloth impregnated with a cleaning preparation for cleaning eye glasses; Wood treatment preparations for polishing.

Costs

65. Although the Opponent has not been wholly successful, it has nevertheless successfully opposed a substantial number of the applied for goods. I therefore consider it appropriate to award the Opponent a contribution towards its costs. I bear in mind that the relevant scale is contained in Tribunal Practice Notice 2/2016. In the circumstances I award the Opponent the sum of £650 as a contribution towards the cost of the proceedings. The sum is calculated as follows:

Fee for the opposition	£100
Preparing a statement and considering the counterstatement of the other side	£250

Preparing submissions in lieu of a hearing	£300
Total	£650

66. I therefore order Shareef Al-Omeri to pay Alnavit GmbH the sum of £650. The above sum should be paid within twenty-one days of the expiry of the appeal period or, if there is an appeal, within twenty-one days of the conclusion of the appeal proceedings.

67.

Dated this 2nd day of August 2022

Dafydd Collins

For the Registrar

Annex A

Class 3:

Skincare cosmetics; Skincare preparations; Anti-aging skincare preparations; Cosmetic products in the form of aerosols for skincare; Non-medicated skincare preparations; Abrasive bands; Abrasive boards for use on fingernails; Abrasive cloth; Abrasive compounds; Abrasive emery paper; Abrasive emery paper for use on fingernails; Abrasive granules; Abrasive paper; Abrasive paper for use on the fingernails; Abrasive paper [sandpaper]; Abrasive paste; Abrasive preparations; Abrasive preparations for polishing; Abrasive preparations for use on the body; Abrasive preparations for vehicle care; Abrasive rolls; Abrasive sand; Abrasive sanding sponges; Abrasive sheets; Abrasive strips; Abrasives; Acne cleansers, cosmetic; Adhesive removers; Adhesives for affixing artificial eyelashes; Adhesives for affixing artificial fingernails; Adhesives for affixing false eyebrows; Adhesives for affixing false eyelashes; Adhesives for affixing false hair; Adhesives for affixing false nails; Adhesives for artificial nails; Adhesives for cosmetic purposes; Adhesives for cosmetic use; Adhesives for false eyelashes, hair and nails; Adhesives for fixing false nails; After shave lotions; After sun creams; After sun moisturisers; Aftershave; Aftershave; Aftershave balm; Aftershave balms; After-shave balms; Aftershave creams; After-shave creams; Aftershave emulsions; After-shave emulsions; After-shave gel; Aftershave gels; Aftershave lotions; After-shave lotions; Aftershave milk; Aftershave moisturising cream; Aftershave preparations; After-shave preparations; Aftershaves; After-sun creams; After-sun lotions; After-sun lotions [for cosmetic use]; After-sun milk; After-sun milk [cosmetics]; After-sun milk for cosmetic use; After-sun milks; After-sun milks [cosmetics]; After-sun oils [cosmetics]; After-sun preparations for cosmetic use; Age retardant gel; Age retardant lotion; Age spot reducing creams; Age spot reducing creams for cosmetic use; Agents for removing wax; Air (Canned pressurized -) for cleaning and dusting purposes; Air fragrance preparations; Air fragrance reed diffusers; Air fragrancing preparations; Alcoholic solvents being cleaning preparations; Alkali (Volatile -) [ammonia] detergent; All-purpose cotton buds for personal use; Almond milk for cosmetic purposes; Almond oil; Almond soap; Almond soaps; Aloe soap; Aloe soaps; Aloe vera gel for cosmetic purposes; Aloe vera preparations for cosmetic purposes; Alum blocks for shaving; Alum stones [astringents]; Amber [perfume]; Ambergris; Amla oil for cosmetic purposes; Ammonia for cleaning purposes; Ammonia [volatile alkali] [detergent]; Ammonia [volatile alkali] detergent; Animal grooming preparations; Anti-ageing creams; Anti-ageing creams [for cosmetic use]; Anti-ageing moisturiser; Anti-ageing serum; Anti-ageing serums for cosmetic purposes; Anti-aging cream; Anti-aging creams; Anti-aging creams [for cosmetic use]; Anti-aging moisturizers; Anti-aging moisturizers used as cosmetics; Anti-aging serum

for cosmetic use; Anti-aging skincare preparations; Anti-freckle creams; Antiperspirant deodorants; Anti-perspirant preparations; Antiperspirant soap; Antiperspirants; Anti-perspirants; Antiperspirants for personal use; Anti-perspirants for personal use; Anti-perspirants in the form of sprays; Antiperspirants [toiletries]; Anti-smear agents for cleaning purposes; Antistatic drier sheets; Antistatic dryer sheets; Anti-static dryer sheets; Antistatic preparations for household purposes; Antistatic sprays for clothing; Anti-static sprays for clothing; Anti-wrinkle cream; Anti-wrinkle cream [for cosmetic use]; Anti-wrinkle creams; Anti-wrinkle creams [for cosmetic use]; Aromatherapy creams; Aromatherapy lotions; Aromatherapy oil; Aromatherapy oils; Aromatherapy pillows comprising potpourri in fabric containers; Aromatherapy preparations; Aromatic essential oils; Aromatic oils; Aromatic oils for the bath; Aromatic plant extracts; Aromatic potpourris; Aromatics; Aromatics [essential oils]; Aromatics for fragrances; Aromatics for household purposes; Aromatics for perfumes; Artificial eyelashes; Artificial fingernails; Artificial fingernails of precious metal; Artificial nails; Artificial nails for cosmetic purposes; Artificial pumice stone; Artificial tanning preparations; Ash (Volcanic -) for cleaning; Astringents for cosmetic purposes; Automobile cleaners; Automobile cleaning preparations; Automobile polish; Automobile polishes; Automobile wax; Automotive cleaning preparations; Auto-tanning creams; Babies' creams [non-medicated]; Baby bath mousse; Baby body milks; Baby bottom balm; Baby bubble bath; Baby care products (Non-medicated -); Baby hair conditioner; Baby lotion; Baby lotions; Baby oil; Baby oils; Baby powder; Baby powders; Baby shampoo; Baby shampoo mousse; Baby suncreams; Baby wipes; Baby wipes impregnated with cleaning preparations; Badian essence; Balms (Non-medicated -); Balms other than for medical purposes; Balms, other than for medical purposes; Bar soap; Bark (Quillaia -) for washing; Barrier creams; Bars of soap; Base cream; Bases for flower perfumes; Basma [cosmetic dye]; Bath and shower foam; Bath and shower gel; Bath and shower gels; Bath and shower gels, not for medical purposes; Bath and shower oils [non-medicated]; Bath and shower preparations; Bath beads; Bath bombs; Bath concentrates (Non-medicated -); Bath cream; Bath creams; Bath creams (Non-medicated -); Bath crystals; Bath crystals (Non-medicated -); Bath crystals, not for medical use; Bath flakes; Bath foam; Bath foams; Bath foams (Non-medicated -); Bath gel; Bath gels; Bath gels (Non-medicated -); Bath herbs; Bath lotion; Bath lotions (Non-medicated -); Bath milk; Bath oil; Bath oil, not for medical use; Bath oils; Bath oils for cosmetic purposes; Bath oils (Non-medicated -); Bath pearls; Bath pearls (Non-medicated -); Bath powder; Bath powder [cosmetics]; Bath powders (Non-medicated -); Bath preparations; Bath preparations for animals; Bath preparations (Non-medicated -); Bath preparations, not for medical purposes; Bath preparations, not medicated; Bath salts; Bath salts, not for medical purposes; Bath soak for cosmetic use; Bath soap; Bath soaps; Bathing lotions; Baths (Cosmetic preparations for -); Bay rums; Bay rums for cosmetic use; Beard balm; Beard care preparations; Beard dyes; Beard oil; Beauty balm creams; Beauty care cosmetics; Beauty care preparations; Beauty creams; Beauty creams for body care; Beauty gels; Beauty lotions; Beauty masks; Beauty masks for hands; Beauty milk; Beauty milks; Beauty preparations for the hair; Beauty serums; Beauty serums with
